

Todd Graves, PhD

Todd Graves joined Berry Consultants as a Statistical Scientist in January 2012 and focuses his work on the design of adaptive clinical trials for a variety of clients. For twelve years he was a member of the Statistical Sciences group at Los Alamos National Laboratory. At Los Alamos he specialized in statistical computation, Bayesian data analysis, and reliability problems, especially combining multiple sources of information. He and his coauthors won the American Society for Quality's 2007 Frank Wilcoxon Prize. He was a Postdoctoral Fellow of the National Institute of Statistical Sciences from 1995 through 1999 after receiving his Ph.D. in Statistics from Stanford University in 1995. He has served as Associate Editor for the Journal of Computational and Graphical Statistics.
